# MORCO

Classic Wedge & Dutch Canopies

## History

Morco was founded in London in 1956 by Mr G H Morrison, as a specialist manufacturer of canopies, covers, sails and tarpaulins for London's busy waterways. His popularity with employees and customers saw his business grow steadily. 1967 saw Morco move to the current Riverside location on the Greenwich Peninsula. In 1978, his son George took over. Keen to utilise his design background, he began to construct specialist awnings on a much larger scale. With his fanatical attention to detail, Morco soon gained a reputation across the UK for outstanding quality awnings.

## Present Day

For over 50 years, Morco have established themselves as the nation's leading design and manufacturer of custom-made awnings and canopies. It remains a family run business that prides itself on its heritage. There remains a dedicated and skillful team of craftsman and designers who all play a vital role in Morco's success story. The majority of products are still hand-built in our London workshop and a small amount are produced in Germany. Morco are keen to lead and focus heavily on pioneering new techniques or materials to improve our end products and deliver more options to our customers.

## Design

Morco have a talented and experienced design team who are skilled at working with or collaborating with architects, design teams, contractors or even working independently to produce an awning solution. We can provide sophisticated 3D-modelling on request, as well as supplying fabric samples. Morco also offer clients the opportunity to utilise their cutting-edge RAGS branding and pattern system which has revolutionised the traditional design parameters.

## Craftsmanship

The Morco manufacturing team are dedicated and skilled craftsmen who are proud of maintaining Morco's on-going reputation for producing awnings of outstanding build quality. Each awning is custom-made and hand-crafted, from building the timber box to sewing each individual fabric panel. There are a number of colour options and finishes for the timber and metalwork and the canvas can be matched to any RAL colour or utilise Morco's RAGS branding and pattern system.

## Application

Our Classic canopies have long been regarded as an elegant and timeless solution to complete any shopfront or fascia. Their beautifully handcrafted features give the canopies a uniquely traditional yet robust feel, sought across the world for its design and quality. While maintaining a highly distinctive look, the canopies are extremely customisable and have been used in a broad range of applications to achieve contrasting aesthetics.

## Construction

We pride ourselves on the craftsmanship during production of these canopies; we believe only the finest quality materials can produce the finest quality canopies. For this reason, every element of the canopies is bespoke, made to fit its surroundings in shape and colour.

## Finishing

With a wide range of fabric colours, metal finishes and hydels available, our Classic Wedge and Dutch canopies offer endless possibilities to suit any setting. All finishes also give our canopies greater resilience - metalwork is powder coated and the fabric is solution dyed and protected to maintain resistance throughout the life span of the canopies and withstand the most torrid weather conditions.

## Customisation

Each main element of our Classic Wedge and Dutch canopies is customisable. The metalwork can be powder coated to any RAL colour. In addition to the broadest scope of colour choice, with options such as valances and branding using our unique RAGS process, there are rarely two canopies that leave our workshop the same.

## Classic Wedge and Dutch Canopies | Classic Canopy Overview

The background features a series of concentric, curved lines in various shades of teal and dark green, creating a sense of depth and movement. A solid dark horizontal bar is positioned across the lower portion of the image. At the bottom, there are some faint, glowing yellowish-orange patterns that resemble stylized flames or light trails.

Fixing Specifications

## Classic Wedge and Dutch Canopies | Fixing Specifications | Frame

### Timber

#### Hardwood

**Fixing:** Coach screw

**Size:** M8 x 65mm

**Depth:** 50mm (min)
